STRENGTH AND STYLE

From a visual perspective, the wheels, sprocket and brake rotors make up almost half of the motorcycle’s profile, and they set the styling direction for the whole bike. Choose wisely. Harley-Davidson® forged, cast and laced wheels undergo thousands of hours of real-world testing to meet the highest standards of performance and durability.

**SEEING THE DIFFERENCE**

**MIRROR CHROME**
Looking for the ultimate flash? Choose Mirror Chrome wheels. To achieve this rich look, our dedicated team of polishers spends hours preparing the wheel for its finish. All visible wheel surfaces are micro-polished to a glass smooth finish, and special masking is applied to prevent contamination to threads and bearing bores.

**BLACK ICE**
Want the blacked-out look but unwilling to give up the shine? Choose Black Ice wheels. First, we polish all the surfaces. Then we apply the exclusive Black Ice coating for a finish with incredible depth and shimmer—impossible to achieve with ordinary “black chrome.” These wheels look perfect on a blacked-out bike, but
d

**CONTRAST CHROME**
Can’t make up your mind? Choose Contrast Chrome wheels. We start with a hand polished wheel, and add a proprietary finish that features both gloss black paint and chrome highlights. The combination produces a stunning contrast that lightens the wheel’s profile by visually thinning the spokes, rim and hub.

**CUT BACK**
Looking for a cool, hard-edged style? Choose Cut Back wheels. We start with a raw wheel, polish all the exposed surfaces, and coat the wheel in a durable easy-to-clean glossy black finish. But we don’t stop there. We machine an intricate pattern into the wheel to the raw aluminum surface below. The resulting mix of machined edges and add a tough look to your ride’s profile.

**ORDERING PROCESS**

**Step 1:** Select a wheel part number for your specific fitment.
**Step 2:** Select the wheel installation kit for your specific application (model, year, and front or rear).
**Note:** If your model is not specified in the wheel fitment, a wheel installation kit will not make the wheel fit your model.
**Step 3:** Refer to the instruction sheet included in your wheel kit to determine the necessary parts required from the installation kit.
**Step 4:** Use only Harley-Davidson® specified tires. See a Harley-Davidson dealer. Using non-specified tires can adversely affect stability, handling or braking, which could result in death or serious injury.

**WHEEL INSTALLATION KITS**

Once you select your wheel style, select the Wheel Installation Kit designed specifically for your motorcycle. Kit includes the bearings and spacers required for installation.

A. REAPER CUSTOM WHEELS*
Step out from behind the shroud. Brilliant cast wheels feature a forward slashing scythe design that radiates from the compact center hub. Honed to a razor’s edge, the 5 curved blade spokes blend with the rim to provide a look of continuous motion. Cast of premium quality aluminum, the hub, spokes and rim are polished glass-smooth and finished in Mirror Chrome.

21” Front

B. MAGNUM 5 CUSTOM WHEEL*
Click off the safety and pull the trigger for a true custom ride. The bold, brawny design is inspired by the steel of a large-frame revolver. This one-piece cast aluminum wheel features high-impact styling, with 15 individual spokes that converge to form five distinct columns. The cast-in “rivets” visually tie the oval cross-section spokes to the rim and the hub and hit the styling target like a high-velocity bullet. Requires separate purchase of model-specific Wheel Installation Kit, Sprocket hardware and Brake Rotor-specific hardware. See I-sheet for details. Installation may require separate purchase of wheel size and model-specific tire.

21” Front

C. CHROME DISC REAR WHEEL
This meticulously polished and chrome-plated version of the Original Equipment solid rear wheel retains the raised rib design. Requires separate purchase of model-specific Wheel Installation Kit, Sprocket hardware and brake rotor-specific hardware. See I-sheet for details.
41174-07 17" Rear.
Fits ’06-later Dyna® (except FXDF and FXDFSE) and ’00-’07 FXSTD models.

D. CHROME “BIG SPOKE” SPROCKET COVER
Muscle rules. Big, beefy spokes define the distinctive hot rod styling and the small trapezoidal openings are reminiscent of Detroit’s street performance wheels of the late ’60s. The chrome-plated steel cover disguises the Original Equipment sprocket and complements both stock and custom wheels. Easy to install, this cover provides the look of a billet sprocket at a fraction of the cost.
40124-10 Fits ’04-later XL (except ’16-later XL1200X) and XR models.

E. MAGNUM 5 SPROCKET COVER
Styled to match the distinctive Magnum 5 Custom Wheel. Available in mirror chrome or gloss black, this Sprocket Cover gives the appearance of having a custom sprocket at a fraction of the cost. Cover is easy to install with Original Equipment hardware or add the Chrome Hardware Kit P/N 94773-07 (sold separately) for a finished look.
Fits ’07-later Dyna models (except FLD).
40120-09 Chrome.
422000010 Gloss Black.
Fits ’07-later Softail® models (except FLSTNSE, FXCW, FXCWC, FXSB and FXSBSE).
40121-09 Chrome.
422000011 Gloss Black.

F. SPROCKET COVER – CHROME
This Sprocket Cover gives the appearance of having a chrome sprocket at a fraction of the cost. It matches the styling of the Original Equipment sprocket and bolts on using the stock hardware.
37757-07 Fits ’07-later Softail (except FLSTNSE, FXCW, FXCWC, FXSB and FXSBSE).
91347-00 Fits ’00-’06 Softail models.
### POLISHED BRAKE ROTORS

A perfect complement to stock or custom wheels. Manufactured to Original Equipment specifications for exact fit, these rotors are meticulously polished to achieve a chrome-like appearance. Rotors are sold individually and include chrome installation hardware.
