Windshields

Whether it’s for keeping bugs off your face or warmth in your body, a windshield has a huge impact on rider and passenger comfort. By diverting air pressure past your chest and over your helmet, a windshield can add hours of riding comfort. For maximum protection from wind and weather, select a windshield that sits just below your line of sight. You avoid looking through rain drops, bug spots and road grime to get a clear view of the highway ahead.

A. QUICK-RELEASE ULTIMATE TOURING WINDSHIELD

You get quick on-and-off convenience, and a clean, custom look. No tools are required. A. V-ROD® 5-SPOKE WHEEL – BLACK ICE

Brawn is back. Five big and beefy spokes define the distinctive hot rod styling, and the knife-edge shape provides an angular spin on the traditional custom wheel look. Treated to the exclusive Black Ice finish, these mirror-smooth wheels add an incredible depth and shimmer that is impossible to reach with an ordinary “black chrome” finish. Pick your styling direction; the rich black finish blends easily into a blacked-out bike, but the wet-look shimmer holds its own in the company of chrome as well. All Genuine Motor Accessory wheels have been certified by Harley-Davidson to perform to our tough vehicle standards for fit, quality and durability. Wheels require separate purchase of model-specific Wheel Installation Kit, Sprocket hardware and Brake Rotor-specific hardware. See I-sheet for details.
